

WHN SHARP SHOOTERS ACKNOWLEDGES

**Linda Mueller and Staff from
Hart Family Medical Associates**

for their help in identifying a problem with the
Contract Number in WellCentive for
Priority Health patients.

The PH eligibility data was entered into the warehouse wrong, causing an entire year of PH eligibility data to have incorrect contract numbers. If this error hadn't been caught and corrected, it could have potentially caused issues down the road with the interface that we are working on with PH, as the members are matched on contract number.

Thank you on behalf of the entire network!!
